A new flood gate was added in 1915. The mill was listed on the National Register of Historic Places in 1980. The owners, the Cemetery Committee, have maintained the mill and the surrounding grounds, with the assistance of volunteers. The mill is open to the public on special occasions, and the grounds are used for educational programs and community events.

The Florence Mill is a significant example of early 20th-century industrial architecture and a testament to the area’s historical and cultural heritage. It continues to serve as a reminder of the past and a symbol of the community’s commitment to preserving its history for future generations.
